Sir Wilfrid Laurier In Wetaskiwin

Thousands Hear Canada's Premier Deliver Eloquent Address

The people of Wetaskiwin were early on Tuesday morning to witness the arrival of Sir Wilfrid Laurier, timed to arrive in Wetaskiwin at 10 o'clock, but did not arrive until 11:45. The city for the occasion was well decorated, all stores and public institutions had their flags, etc., decorating their premises. A stand elaborately decorated adjoining the platform was in readiness for the entry of the distinguished minister and his party. The preliminary started by Mayor Montgomery and Dr. T. B. Stevenson boarding the train at Strathcona, representing the city. There was quite a crowd of Wetaskiwinites on the platform at 9:30. Soon however, the report was handed round that the distinguished visitor would not arrive until 11:20. However, the train steamed into Wetaskiwin at 11:45 and the prime of all Canada was presently seen by all. On landing he was escorted to the platform by Mayor Montgomery and Dr. Stevenson, while the dower girls Miss Hilda Rose, Mrs. Irene Torson, Corine Cowan, Mabel Olin, Ethel Austin, Evelyn Miquelon, Germaine Cady scattered flowers along his pathway.

The gentlemen on the platform were as follows:

Hon. Sir Wilfrid Laurier, the Prime Minister of Canada; Hon. A. L. Sifton, Premier of Alberta; Hon. Frank Oliver, Hon. Geo. P. Graham, Minister of Railways and Canals; Honorable Wm. Gibson, Grimsby, Ont.; Hon. Duncan Marshall; Hon. C. W. Cross; E. M. McDonald, M.P.; E. P. Parke, M. P.; P. M. Douglas, M.P.; A. S. Hunsford, Ex-M.P.P.; Geo. P. Smith, M.P.P.; Chas. H. Olin, M.P.; P. M. E. O'Brien; Rev. A. R. Aldridge; Ald. Wagner; Rev. Father Wallace; J. G. Anderson and our worthy Mayor, Mayor Montgomery, Dr. T. B. Stevenson, chairman.

Dr. Stevenson, as chairman, introduced Sir Wilfrid. After which the Mayor read and presented to Sir Wilfrid the following address:

Sir Wilfrid Laurier, F.C.G.C.M.G.
Premier Minister of the Dominion of Canada

Sir—
As Mayor of the City of Wetaskiwin and in accordance with a resolution of the City Council, unanimously passed it in my duty to welcome you to our city and to convey to you on behalf of the citizens our sincere respect both personally and for the high office you so ably fill.

Taking a retrospective view of the Dominion and particularly of the Western country from the first time when in the year 1874 you entered Dominion politics, up to the present you must indeed feel that times have changed and that the progress made by all sections of the Dominion has far exceeded the most sanguine expectations of the Canadian people. During that period you personally have been a great factor in this development and since 1896 at the helm, guiding the "Ship of State."

Sir, it is always difficult to say personally to a man what one actually feels, but we desire to do so. We record our feelings of gratitude to you for the great labor you have undergone in forwarding the interests of Canada, and of one thing rest assured that history will do you justice and that your name and acts, will be enrolled amongst those of other great men who amid the turbulent seas that lash the political shore have led this country to a foremost place among the nations of the earth.

We regret that you are unable to stay longer amongst us, but we are buoyed up by the hope that on your next visit to this Western country you will be able to gratify our wishes.

In conclusion, Sir, we wish you long life, health and happiness and that you will return to your great work, we will not say with renewed, but with your usual vigour and that the result will be to the benefit of all classes of the Canadian people.

H. J. MONTGOMERY
Mayor of the City of Wetaskiwin
Delivered 10th August 1910.

After receiving the address Sir Wilfrid rose to reply. In his reply he stated that it was a great pleasure to be amongst them, and said that he had a political career of nearly 40 years standing, stating that although he himself was getting old yet around him things were getting younger. He further added that age was a matter that crept on one, as it were, unawares, although apart from his years, etc., if he were younger he could probably have told more to them. He went on to say that he had donated his life to the interest of the people and country, he did not want emolument for that duty, all he wanted was the thought that he had done his duty to them in the past, as he would always hope to do in the future. He stated that he had visited places in which he had longed for a more healthy stay, but laughing he said "I was to stay at the places, I have visited, just as you now would wish for a more healthy stay to your city, I would have to take up a homestead and stay here altogether." He stated that since passing through here five years ago he noticed a great difference, a very decided difference, in the fact that there was more people, the city was larger and looked a more success in the future. Continuing he added that he had a lot more places yet to visit, and appealing to the ladies of the assembly he said he also had a wife waiting for him. In his closing remarks he expressed that whether the settlers of this country, came from the Old Country, England, or from any other part of the world, including the home of his ancestors, all he hoped and prayed for was the fact that they would realize that they were British subjects, loyal Canadians true to His Majesty, the King, and thanking the assembly for the good wishes extended him for his future welfare and Lady Laurier, he closed his reply to Mayor Montgomery to the applause and hearty appreciation of the citizens of Wetaskiwin.

The chairman then introduced the Hon. A. L. Sifton, Premier of Alberta, who in eulogy on Sir Wilfrid, continuing to remark that he had remembered one time that the farmers here had wanted to sell out—sell out at any price to get money to leave the country. But he said now that they did not want to sell, but were wanting good prices for their products, and that they got better prices which was a sure indication that the country was improving. With a few remarks concerning the Hudson's Bay Railway, which he said he remembered giving an eloquent, or what was then termed an eloquent speech in 1882, was he stated now an absolute surety, but which he would leave for his friend the Hon. Minister of Canals and Railways to explain.

The next speaker was our old friend Frank Oliver, who spoke briefly and to the point.

Here the chairman introduced Mr. J. G. Anderson, representing the U. P. A. T. delivered a well rendered speech, in a clear voice that reached the outside limits of the crowd. The United Farmers hope for a future government contract, in which the government would undertake the operation of the elevators, showing clearly what a benefit would be derived by the owning of private owners of these elevators. He closed his remarks which were well received by the public and was also appreciated by Sir Wilfrid and party. Mr. Anderson is a man who will count in the future. He certainly gave a good rendering for the United Farmers of Alberta.

The chairman next introduced the Right Hon. Geo. P. Graham, Minister of Railways and Canals. Upon rising to address the people he stated that it was a good thing to have a cousin as a chairman, as he remarked it puts one on a better footing with your audience. Of course he said cousin Tom cannot help the re-

Slaughter of Prices on Doll Carriages

We have a number of Doll Carriages that have become slightly damaged and we are going to cut the price on these in such a manner that we will clean out the lot in short order. The damage to these Carriages is so small that you will almost fail to see it, but the prices we are selling them at is smaller still. See our window full

Frost & Wood

No. 3 Binder

does Better Work

Because of the recent Sprocket Wheel the No. 3 binder makes a better, more tightly compressed bundle and saves considerable time. The larger the bundle faster, too, than the ordinary binder. Remember, no other binder has the Sprocket Wheel. Neither is any other binder so light in draft. At all points where there is a possibility of friction occurring the makers of No. 3 binder have provided large roller bearings. That's why the Frost & Wood No. 3 runs so smoothly and easily—one reason why it gives so many more years of service. Another reason for its great durability is the strong, powerful construction of its back head, which would take to explain to you fully. Drop in at our earliest convenience and talk things over with us. We are confident that the Frost & Wood No. 3 is the binder for you. Give us a chance to prove it.

AGENTS FOR

C. P. R. LANDS

An excellent opportunity is opened to the farmers to buy C. P. R. Lands while the price is yet very low. There is every indication that the price of land, which has been low in Central Alberta, will within a short time be advanced considerably. Now is the time to obtain these lands in payments running over ten years at 6% interest. See us for prices. We have a fine assorted list of choice improved and raw lands for sale which will make the investor money. Farmers contemplating selling will do well to list their lands with us.

A PUBLIC WARNING

We wish to warn the public against being imposed on by unscrupulous dealers who substitute with cheap and worthless preparations designed to be imitations of Dr. Fowler's Extract of Wild Strawberry, the wonderful Bowel Complaint cure.

Pharmaceutical concerns are flooding the market with these cheap and worthless preparations, some of which are even labeled "Extract of Wild Strawberry," "Wild Strawberry Compound," etc., but they do not use the name "Dr. Fowler," in the hope that the public may be deceived and led to purchase them, thinking they are getting the genuine "Dr. Fowler's."

Are you willing to risk your health—perhaps even your life, to these no name, no reputation, likely dangerous, so-called Strawberry Extracts?

Dr. Fowler's Extract of Wild Strawberry has a reputation extending over sixty-five years, therefore when you buy it you are not experimenting with a new and untried remedy.

It cures Diarrhea, Dysentery, Colic, Stomach Complaints, Scurvy, Cholera Morbus, Cholera Infantum, Summer Complaint, and all Looseness of the Bowels.

Ask for "Dr. Fowler's" and insist on getting what you ask for. Price 35 cents. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

EXTERMINATE THE GOPHERS

An American exchange has an article on the destructive work of rats and estimates the loss to the farmers of millions of dollars annually. They follow the grain all through its life. Starting with the seed sown in the ground they are ready for green feed as soon as it sprouts. They attack it in the ear and they camp in the sheaves. From the granary to the mills, the cars, the ships, the persistent little rodent keeps leaving toll and never lets up. In the West we are still free from that pest but for how long who can say as he is a great traveler. Meantime the ubiquitous little gopher and ground squirrel do pretty well and this year seems to see them more numerous than ever. To deal with this property requires concerted action: It is no use for one farmer to get after the gopher when they are allowed full scope on the other side of the fence. It has been estimated that every gopher removed sends a loss of 1 bushel of grain and it can readily be believed. The remedy suggested for the American rat plague and already being successfully adopted is to inoculate them with a virulent disease and let them loose to carry the infection among their fellows. In this way much good has been done in some States. This would be a good work for the Grain Growers' Association and Farmers Unions to take up—Exchange.

David Lowe, aged ninety-one years, recently made application at the Daysland land office for a patent on his homestead near Spring Lake.

N. E. Carruthers, principal of Lacombe public schools, was married on Wednesday of last week to Miss L. J. Boyd, also of Lacombe.

T. A. Webb, of Leduc, Ont., accompanied by his son, paid a short visit to this district last week, looking over his investments.

If you have lost anything, a small ad in the Times will find it for you. If you have anything to sell, a small ad in the Times will bring you a buyer.

The current issue of the Official Gazette announces the appointment of O. Turson, of Bittern Lake and Andrew Leslie, of Duhamel as ward inspectors.

The sixth annual convention of the Union of Alberta Municipalities will be held in Wetaskiwin on September 6th and 7th. Each municipality is entitled to representation provided they pay the membership fee. Arrangements have been made for reduced railway fares according to the delegates in attendance. Municipalities who are represented at such gatherings should avail themselves of this opportunity and benefit by the proceedings.

Imitations are always unsatisfactory.

MR. OLIVER TELLS OF HIS LONG JOURNEY

When Hon. Frank Oliver reaches Ottawa he will have covered 9,577 miles since he left. That is a very extended journey, and it is doubtful if a more successful trip was ever made by a Canadian cabinet minister. Mr. Oliver passed through Calgary on Tuesday.

"The first 2,400 miles of the journey," said Mr. Oliver, "was by rail to Edmonton; thence 100 miles with team; thence 100 with with canoe; thence 80 miles in scow; thence 200 miles in canoe; steamer, 1,300 miles; landing us at Port McPherson. The portage from McPherson to the landing of the Porcupine is called 60 miles. It is a liberal 60, with mosquitoes more than liberal. More than 400 miles down the Porcupine waters by canoe, and we landed safely at Port Yukon. The rest of the way is by palatial steamer and the railway, and is counted easy sailing."

"I mean my trip this side of Port Yukon nothing unusual as a feat in travelling. In fact, that is the side from the portion provided with the established means of conveyance for steady travel that the trip is not so marvelous, but, of course, it is a long trip, and one over a course seldom covered in our continental jaunts, and possibly has never been covered over the same full course as I am travelling in so short a time."

"We found everything serene and the settlers prospering along the route. In the Mackenzie valley the vegetation was high. We were there the last of June, and I was surprised to find the growth so rank at that time."

Each Fine Land

"The H. H. made is a vast river, with a wide, deep, largely boggy, but doubtless of a nature that can be drained. Hundreds of acres of miles of fine land are there. If the Mackenzie river only penetrated the heart of the prairie instead of the remote region it does that valley would now be one of the most productive in the world. But I do not say that it will not be occupied. The pressure of the population will see the Mackenzie country brought into the range of desirability. It will be a country for homes. The trip from Edmonton to McPherson is northwesterly. Many fail to appreciate how much so it is. McPherson is as far west as Skikow by this, one can better realize how far toward the west one travels in going from Edmonton to McPherson. The turn to the west, however, is not until one is well along on the journey out from Edmonton, or near Port Chippewyan."

"The mineral belt of the northern country is so vast that it is difficult to say how far it extends. However, from what I gathered on the trip, and data available I believe that the precious minerals may not be found in the Mackenzie valley unless in its most easterly reaches. The formation does seem favorable for gold and such precious minerals except in that extreme portion. Along the course which I followed the resources to be gathered in mining most likely will be in the form of petroleum and natural gas in the Athabasca region, salt, in or near the Great Slave and the Mackenzie districts; coal, in the Mackenzie and possibly other portions and sulphur on the shore of Great Slave Lake. It is said there also is a galea in some portions. Timber is plentiful along the whole course and the lakes and streams are of considerable value."

As Field For Settlement

"Studying the country as a field for human habitation, the chief question is that of growing crops and raising herds. I cannot say how far north success might eventually be experienced, but I feel safe to say that farther north than many have imagined. The possibilities for agriculture will be revealed in time, and I should not be surprised that some time that part of Canada will sustain a large population. Yukon likewise has its resources, all of which are well known here."

"I am persuaded that this region is of incalculable value to Canada, and I feel that future generations will look on the northland with far greater appreciation of the true worth and vastness of the resources than do the people of the Dominion and the rest of the world in this day."

"I am persuaded that this region is of incalculable value to Canada, and I feel that future generations will look on the northland with far greater appreciation of the true worth and vastness of the resources than do the people of the Dominion and the rest of the world in this day."

AWAKENING OF SCIENCE

TO THE VALUE OF FRUIT

What is "FRUIT-A-LIVES"?

Medical men are just beginning to realize the possibilities of fruit in curing disease. Its action on the liver, kidneys and skin is wonderful. Yet fruit in its raw state is impracticable in treating disease because of the minute quantity of the active or curative principle contained in fruit juice.

A physician in Ottawa, after years of patient work, discovered a process, whereby the medicinal or "bitter" principle of fruit juice is increased in quantity and thus a more active and more valuable substance is obtained. "Fruit-a-lives" is the only medicine in the world made of fruit.

Hundreds of prominent people in every section of the Dominion owe their good health to "Fruit-a-lives." Hundreds more are daily becoming stronger and better by taking them. "Fruit-a-lives" is daily proving its inestimable value as a natural cure in all cases of Constipation, Biliousness, Torpid Liver, Backache and Headache, Neuralgia, Rheumatism, Kidney and Skin Troubles.

See a box, 6 for \$2.50, or trial box, 25c. Sold by all dealers, or sent, postpaid, on receipt of price by Fruit-a-lives Limited, Ottawa.

NEW NORWAY

Letters have been received by the Board of Trade here from Mr. R. J. Chamberlin, general manager of the G. T. P., and Mr. H. H. Brewer, general superintendent of the company, confirming the guarantee of a station at New Norway, which was given some months ago. Mr. Chamberlin remarks in his letter that "New Norway" is one of the most promising points for a station along the line of the Tule-Calgary Branch and his statement is definitely made in the letters that they will arrange as soon as it can be done economically after the track reaches there, to build a station at New Norway. In the meantime "Watch New Norway Grow."

The Merchants Bank has this week opened a regular daily service here with Mr. H. C. McLean, formerly of Camrose branch, as manager and Mr. W. L. Whitham as accountant. The farmers will appreciate this effort on the part of the bank to give them a first class service.

Mr. F. Gleason, of eastern Ontario, has completed all arrangements for a new general store here and the building is already under construction. It will be a first-class store in every way and Mr. Gleason has impressed people here as a hustler.

Mr. Albert Sanders, our druggist, has commenced work on a handsome new residence and will soon finish his bachelor life. Mr. Sanders is also preparing plans for a new drug store. The fine new residence of Mr. T. J. Skatkebo is rapidly nearing completion. It will cost \$2500 and will be a credit to the village.

Mr. Willows is preparing to start work on a new two-story building, beside his harness shop to be used for an implement warehouse with a hall upstairs. Mr. Willows is also making headway with his new residence.

Word has been received from the J. Richardson Co., of Winnipeg, that materials for their grain elevator here have already reached Camrose. They are waiting for the steel but if it does not come soon they will freight the materials from Camrose on wagons.

There are in all eight new buildings either actually under construction or to be started in a few days. New Norway looks like a winner.

Messrs. Denney & David have opened their hotel here and are providing first-class accommodation to the traveling public. The hotel is a good three-story structure and a genuine surprise to all who see it.

New Norway is nine months old. The steel is not here yet but it is an incorporated village. It has well graded streets and wide plank sidewalks. There are good business places of almost every description. That is going some even in Alberta!

NOTICE TO HOMESTEADERS

Owing to the great demand for railway labor and the difficulty that is being experienced by railway contractors in securing the number of laborers they require, authority has been issued from the Department of the Interior, to grant protection to homestead and pre-emption entrants until the first day of April, 1911, upon the following conditions.

Application for such protection must be made to the agent of Dominion Lands, for the district within which the land is situate, who will grant same provided it is shown to his satisfaction that the applicant has perfected his entry by actual residence upon his land for at least thirty days.

BEER MAKERS' OPPORTUNITY

There should be no hesitation on the part of the farmer who has a fancy for beef cattle raising in extending his operations in this direction. Not for many years has the outlook been so satisfactory from the beef-makers standpoint. The numbers of beef cattle have been decreasing for several years back, more particularly in the great cattle producing countries, such as the United States. This fact alone would be sufficient to make the outlook for the beef-maker a very satisfactory one. But while this decrease in the number of beef cattle has been increasing at a rapid rate, these two facts should be sufficient to give such an incentive to beef-production that no one need have any hesitation about increasing his yearly output of beef cattle. Then there is the decrease in the supply of food products of all kinds. There is a general scarcity the world over. Prices have advanced and while it is never safe to be absolutely sure on the market end of any business, conditions governing supply and demand at the present time are such as to make it reasonable certain that good profitable prices will obtain for all food products for some time to come. Conditions have materially changed in Canada during the past few years. The home demand has increased by leaps and bounds, and to supply the local demand with beef will require a large number of cattle of the best quality. To say nothing of the demand abroad. To The Right Honorable

WHY FARMING REQUIRES SKILL

Calculating on the basis of the original value of his land, the farmer is making money. Calculating on the current market price at which he could withdraw his investment and put it in interest bearing industrial securities, he is losing money every time the seasons revolve. In many sections of the country farm values have doubled, even tripled, in the last generation. Land that has been worked on the basis of calculation of from \$5 to \$20 per acre, which in the future would respond to average values of from \$75 to \$200. The old generation, with its obsolete methods, which has persisted solely on the "lucrose" of cheap land or gift land, must give way before the new generation. The newcomer, the man who would establish himself as a farmer today, has to meet the changed conditions and it is to these conditions that the business of farming must respond. The question of fixed capital has come to stay. We are not yet out of our first generation of farmers on a grand scale. This first generation is taking its land from the plow, and those who follow the pioneers either through deed of sale or probate, must hereafter reckon interest on investment as an actual item of cost. Farming is an industry in its transitional stage, and it is to meet the new conditions in a businesslike way that experts have been giving their attention to the question of devising a system of cost accounting for the farmer.

SIR WILFRED LAURIER AND PARTY HAVE VERY NARROW ESCAPE

Prince, Sask., Aug. 5.—The train having on board Sir Wilfrid Laurier and party, east bound from Moose Jaw, ran head-on into a west bound freight about nine o'clock to-night, three and a half miles west of here. Both engines were badly damaged, and five box cars were derailed, but the heavier passenger cars stood the shock better, and remained on the track.

Sir Wilfrid and most of his party were thrown violently to the ground but beyond a few bruises none of the party were injured.

The engine crews both jumped to safety, after shutting off the steam and jamming on the air brakes, but the fireman on the premier's train was caught and buried in the wreck and it is not as yet known whether he has been fatally injured.

The place where the collision took place is about fifteen or sixteen miles east of Moose Jaw.

P. BURNS & CO. HAS PURCHASED CATTLE RANGE

Merritt, B. C., Aug. 5.—It is reported on good authority that the properties of the Douglas Lake Cattle Company of Calgary for a sum said to be \$1,500,000. There is in all 16,000 acres of land, a large part of which is under cultivation, and the cattle number 12,000 head.

P. Burns & Company have been seeking this property for some time, and it is only a few months ago that J. B. Graves refused an offer of \$1,000,000. The Douglas Lake Cattle Company's ranch is one of the largest out-lying ranches in the province.

FOR MEN ONLY

We wish to establish a demand for our High Grade Tailorings in Wetaskiwin and vicinity. We want men who wish to wear the very best in custom-made clothes. We want men to examine the largest and most complete stock of woollens in Western Canada. We want men to be measured and fitted individually by the best and most conscientious of successful tailors.

Free Trip to Edmonton and Return

We offer this to all men from Wetaskiwin and nearby places who will call on us and select from our stock any pattern to be built to their measurement. We are the tailors who destroyed Edmonton's prejudice for Eastern tailoring. We uniform the police, have large custom in military circles, and cater to the most fastidious dressers in the city.

Our Success is in Our Motto.

A flow of natural gas has been struck at Tofield that already, gives promise of proving a bonanza for the town. Some claim that the formation at Tofield is as good as an oil field.

The tunnel under the Detroit River, commenced some four years ago was completed and formally opened on July 20th. The cost is said to have been \$12,000,000. Electric locomotives are used.

LAURIER IN WETASKIWIN

(Continued from Page 1)

relationship, and he hoped the people of Wetaskiwin would not blame him as he was not questioned on the matter, anyhow the Right Hon. Gentleman after making himself familiar with his audience launched out into a learned, if rather brief, outline of the government policy, etc. He stated that Sir Wilfrid did not entirely agree with government ownership of the railways, but he would agree to a federation, that is, he invited the farmers to send down their representatives to Ottawa, so that they could place before Sir Wilfrid a scheme, whereby they could by some means arrange for the betterment and a clever way to remove the obstacles that were in front of the farmers. The Minister then went on to state the feeling of reciprocity between Canada and the States. As an illustration he remarked "you buy a Massey-Harris binder from a Canadian firm, you are clear of duties, etc., the American agent steps up and says what have you done? Why I have bought a Massey-Harris. The American salesman says yes, but they do not repair it for you. Now you buy of us and we repair it as well, don't you see, the Minister remarked. There is no reciprocity at all between the States and Canada." Continuing he said that a deputation went from Ottawa to Washington, and received a few dinners etc, but no reciprocity. He said that if there was to be reciprocity between the two States, would have to make known in detail for the advantage of Canada, or they would not reciprocate. Coming to the Hudson's Bay contract he said that there

was now over \$300,000 granted for it, and that a bill would also be passed at the next session for the construction of the road. He said that with the Hudson's Bay pushed through, that the farmer would be able to send his products right through to Liverpool, England and that they would be landed as fresh as when put in the car, and furthermore it would also have a tendency to lower the freight rates. That he says is what is coming, not a thing of the past, but will soon be an accomplished feature. In speaking of Alberta he suggested that it become a dairy province. He forecasted that if Alberta did it would through the means that he had spoke of, be able to place the Alberta butter in England alongside the best Irish and Danish productions. He said this province would be known as the finest producer in Canada or America. He closed his remarks with his thanks to the community and amidst hearty and generous applause thanked himself. The main feature being over the chairman motioned the band and invited the crowd to sing "God Save the King." Three cheers were given and then more cheers for Sir Wilfrid and cheers for his party. The special lined up and the visit of the Premier of Canada was past, though it will ever be present in the minds of the people of Wetaskiwin.

Chas. Howell is in Innisfail this week on business.

Don't forget the Prince of Wales Sunday dinner. See menu on back page.

W. A. Smuck, manager of the hotel, spent the early part of the week in Edmonton.

Mr. and Mrs. Hooper, of Ontario, who have been staying with Mrs. Grein through Mr. Hooper's illness, left on Tuesday for Edmonton.

Mr. A. E. May, Edmonton, and V. C. French, Wetaskiwin, have been appointed grand representatives to the Sovereign Grand Lodge, I. O. O. F. which meets in Atlanta, Georgia, in September.

Work was commenced Monday on the new cement sidewalk. The board walks on Pearce Street have been removed, and everything is in readiness for the cement, which will be put down at once.

Dr. F. A. Nordbye, M. D., graduate of the McGill University, Montreal, experienced an interne at Bathurst Hospital, St. Paul, Minn., and practitioner in his profession has decided to locate in our city and being a Scandinavian well welcomed as a skilled and successful physician and surgeon there is reason to expect that he will prove to be a desirable and valuable addition to so efficient corps of doctors already here. The large Scandinavian population in the city and vicinity ought to be a field for a doctor who also uses the Scandinavian language. He is expected to be here after next week or about the 20th inst.

WETASKIWIN EXHIBIT AT LETHBRIDGE FAIR

A special car with the Wetaskiwin brass band and a large number of citizens left here Tuesday morning for the Lethbridge Fair. The smoking compartment of the car was filled with a large collection of scale roots, vegetables, etc., the growth of which was evidence of the wonderful fertility of the soil of the Wetaskiwin district. The exhibit was in charge of Mr. A. R. Ellis, president of the Wetaskiwin Board of Trade, and among it were very fine samples of fall wheat, quite ripe, oats, barley, timothy, clover, alfalfa, and showing a remarkable growth. The vegetables were especially good and a branch from an apple tree in the garden of Mr. Rosenroth was simply a mass of fruit.

The idea of the exhibit is to show the farmers of Southern Alberta, and visitors at the fair just what kind of crops are produced in this district. It is not in any spirit of bragging because of the partial failure of the crops in the south country this season, that the exhibit is being made, but merely to advertise this district, and help to make the fair a success. The Wetaskiwin band will compete in the tournament to be held during the week.
